## **INTRODUCTION**

The purpose of this document is to easily explain the details of the iX Global Ambassador Rewards Program. The Rewards Plan was created with the Founder's vision in mind. Innovating rewards that Impact people throughout the world and Inspire them to do, have and BE more.

The iX Global Compensation Plan is subject to the iX Global Brand Ambassador Agreement and iX Global Policies and Procedures. If there are any conflicts between this document and the iX Global Policies and Procedures, the Policies and Procedures takes precedence.

## **TERMS AND DEFINITIONS**

### **BRAND AMBASSADOR**

A Brand Ambassador is an iX Global person or business who has signed the iX Global Brand Ambassador Agreement. A Brand Ambassador may qualify to earn commissions by achieving the qualifications set forth in the iX Global Compensation Plan.

### **BUSINESS VOLUME (BV)**

Many iX Global products have BV that is created upon their successful purchase. This BV is used for both Rank Qualifications and for Team Commissions.

The table below shows the BV attributed to each iX Product.

<b>PACKAGES</b>	<b>Business Volume</b>
iX Basic Package	80
iX Pro Package	90
iX Premium Package	120

## **ACTIVE**

A Customer or a Brand Ambassador is considered Active for a Commission Period when they have generated a minimum of 80 PV during any of the previous four (4) consecutive Commission Periods.

## **INACTIVE**

A Brand Ambassador becomes Inactive when they do not generate at least 80 PV during the previous four (4) consecutive Commission Periods. Brand Ambassadors are given a grace period of three (3) days to generate 80 PV once they become Inactive before they forfeit their Rank Qualifications and Carry Forward Volume.

## **COMMISSION PERIOD**

The Commission Period is defined as one week. Each Commission Period runs from Friday at 12:00 am - Thursday at 11:59pm Mountain Standard Time.

## **QUALIFICATION PERIOD**

The Qualification Period is the current Commission Week plus the three previous Commission Weeks.

## **REAL-TIME QUALIFICATION PERIOD**

The Real-Time Qualification Period is the period of time between the present time and 27 days 23 hours 59 minutes and 59 seconds in the past. It is a rolling 28-day period and is used to show Live Rank Tracking in the Back Office.

## **ENROLLER**

An Enroller is a Brand Ambassador who introduces and enrolls another Brand Ambassador or Customer.

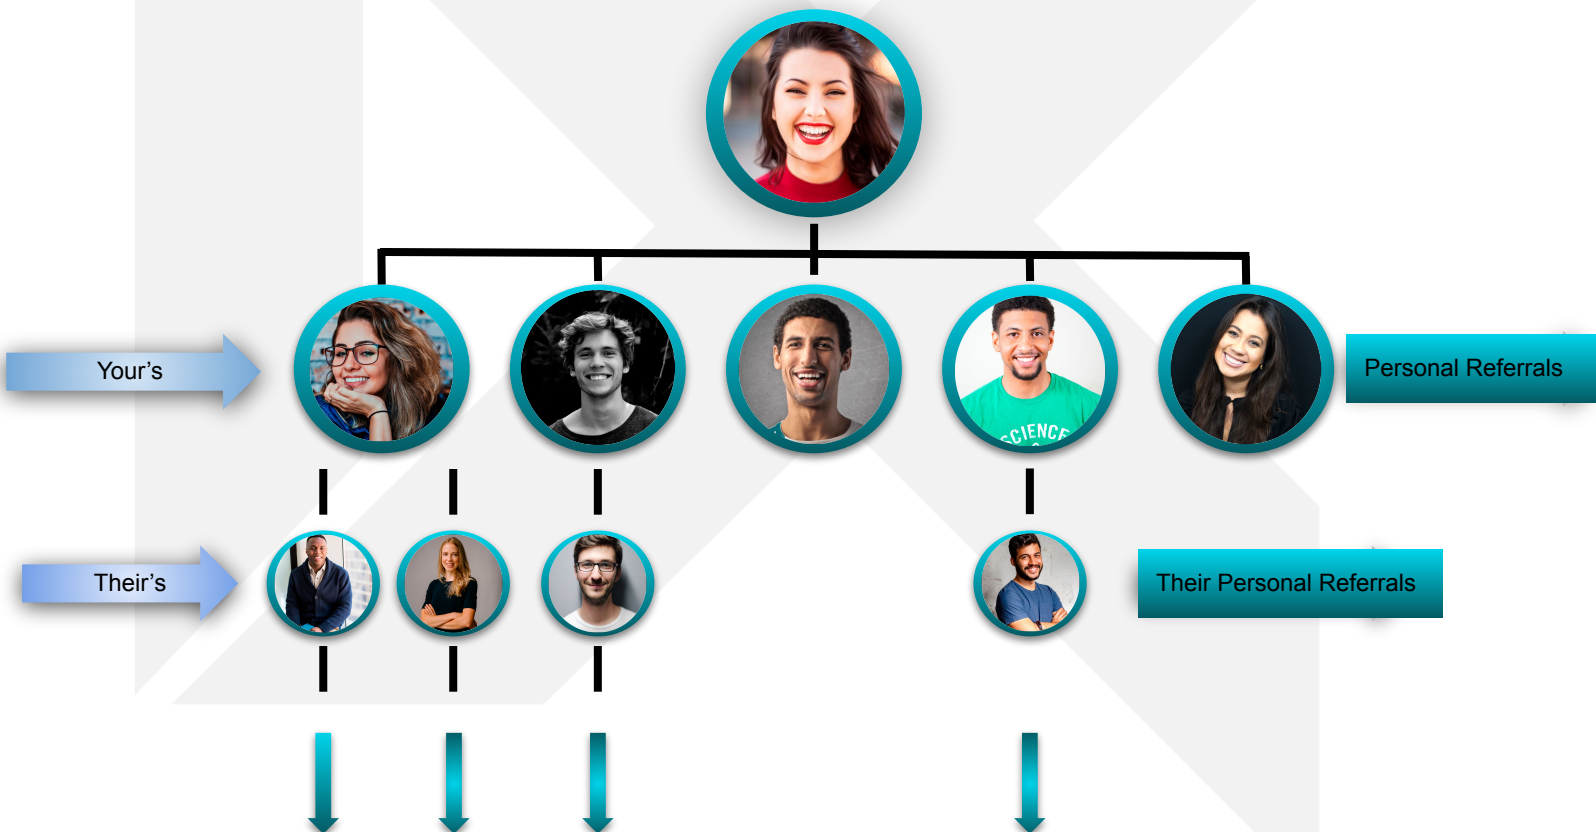

## QUALIFICATION STRUCTURE

The Qualification Structure, also known as the Personal Enrollment Tree, is the structure used to create all of the Volume metrics for Rank Qualifications. This is why we call it the Qualification Structure.

The Qualification Structure includes on the first level, every person who you have personally referred to the company. The second level contains everyone enrolled by those on the first level, and so on.

## QUALIFICATION STRUCTURE

The image below shows the Qualification Structure.

## **QUALIFICATION STRUCTURE VOLUME (QSV)**

During the Qualification Period and Real-Time Qualification Period, our system adds up all of the Volume resulting from all of the purchases from every single Customer and Brand Ambassador in your Qualification Structure. This is your QSV.

## **QSV LEG MAX**

For Rank Qualification purposes, the QSV from any of your Qualification Structure legs cannot contribute more than the Max Leg Volume for the corresponding Rank.

## **QUALIFIED RANK VOLUME (QRV)**

This is the Business Volume from the Qualification Structure after accounting for the QRV Leg Max corresponding to the Rank.

## **HOLDING TANK**

When a Brand Ambassador enrolls another person, that person is placed in the Holding Tank of the Enroller for up to 7 days from the time of their enrollment. This allows the Enroller to place them with leaders and team members that they can work with.

## **PLACEMENT SPONSOR**

When a new Customer or Brand Ambassador is placed under you in the Pay Structure you become their Placement Sponsor.

## **PLACEMENT STRUCTURE**

The Placement Structure consists of a Left Team and a Right Team. This is the structure used to determine the Team Commissions.

## **PLACEMENT STRUCTURE VOLUME (PSV)**

Placement Structure Volume is the addition of all BV created by purchases from everyone in your Placement Structure during a given Commission Period. Typically this is added up and separated by the Left Team and Right Team of your Pay Structure.

### **CARRY FORWARD VOLUME (CFW)**

Carry Forward Volume is Volume not included in commission calculations from the Strong Team AFTER Team Commissions are calculated for a Commission Period. This Volume “holds”, or is Carried Forward for use in future Commission Periods. Carry Forward Volume always remains on the Team it originates from. For all future Commission Periods, Carry Forward Volume is added to the Total Volume generated on that Team during that Commission Period.

\*Please note, Carry Forward Volume will be removed 7 days after a Brand Ambassador becomes Inactive.

### **STRONG TEAM AND STRONG TEAM VOLUME (STV)**

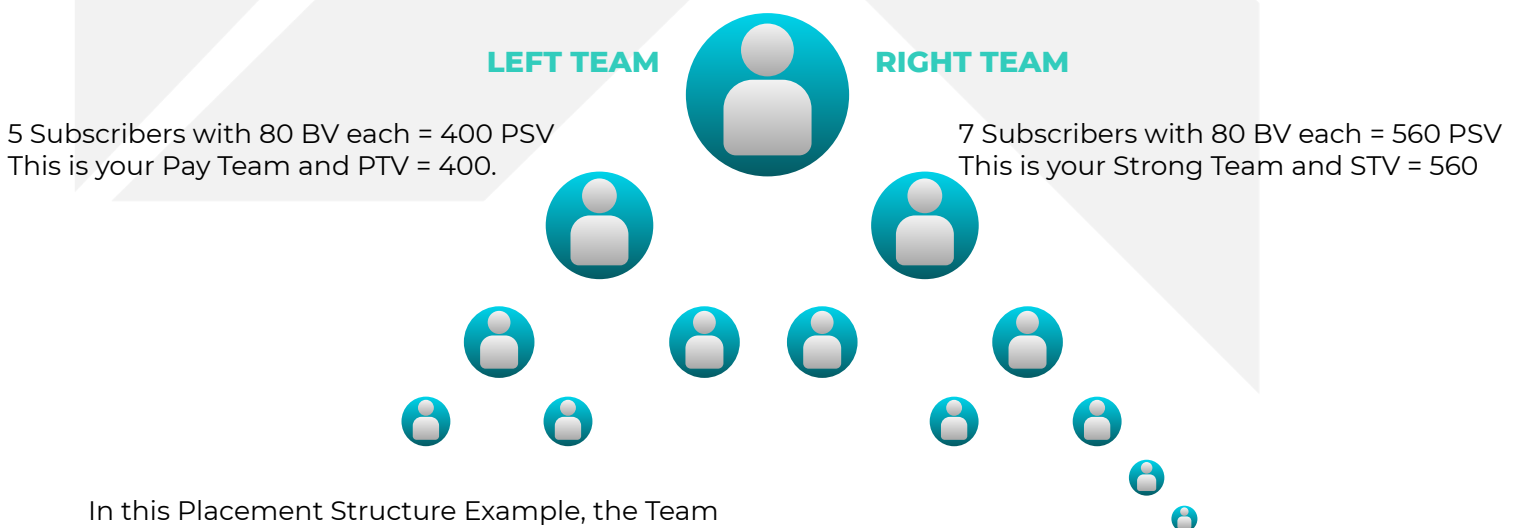

The Strong Team in your Placement Structure is the team in your Placement Structure that has the most PSV during a given Commission Period. The total PSV of that team plus any available CFW is your STV for the Commission Period.

### **PAY TEAM AND PAY TEAM VOLUME (PTV)**

The Pay Team in your Placement Structure is the team in your Placement Structure that has the lesser PSV during a given Commission Period. The total PSV of that team plus any available CFW is your PTV for the Commission Period. If Qualified, you are paid a percentage of PTV as Team Commissions.

### **PAY STRUCTURE**

The image below shows the Qualification Structure

In this Placement Structure Example, the Team Commissions would be 10% of the PTV, or \$40

## **PAY LOCK (CAP)**

Pay Lock is the maximum earnings a Brand Ambassador can receive from their Volume generated during any Commission Period. Any Volume that is unpaid because earnings exceeded the Pay Lock will carry forward and will be paid out within one of the three following Commission Periods as long as the Pay Lock is not breached.

## **RANKS**

The Ranks have been simplified into one set of Ranks. Each Rank of each type must be qualified for by fulfilling the Requirements set forth in this document.

## **DIRECT BONUS**

The Direct Bonus is one of the three compensation types available in the iX Global Rewards Program. The Direct Bonus may be earned in any Commission Period during which Qualifications are met.

## **TEAM COMMISSIONS**

The Team Commission is one of the three compensation types available in the iX Global Rewards Program. The Team Commissions may be earned in any Commission Period during which Qualifications are met.

## **RANK BONUS**

The Rank Bonus is one of the three compensation types available in the iX Global Rewards Program. The Rank Bonus may be earned in any Commission Period during which Qualifications are met.

## **iX GLOBAL MONTHLY SUBSCRIPTIONS**

More subscriptions and/or products may be added at any time, and any existing subscription and/or product may be modified or removed at any time.
